

Sustainability

Reduce expenses and decrease environmental impact while maintaining the ability to provide excellent patient outcomes by embedding sustainable practices related to Johnson & Johnson Medical Devices Companies (JJMDC) devices into health system operations

Attributes

- Programs to improve procurement of sustainably designed devices
- Practical tools and educational resources to help drive sustainability initiatives
- Optimization of JJMDC and non-JJMDC reprocessed single-use devices that are substantially equivalent to the OEM devices
- Management of device collections for recycling and reuse

Benefits

- Manage costs of delivering care while maintaining excellent patient experiences
- Support health system environmental preferred purchasing (EPP) goals
- Improve public perception by creating better, safer, more sustainable workplaces and communities

Consume Less. Impact More.

4.67M

Hospitals produce more than **4.67 million** tons of waste every year¹

30%

The operating room uses 30% of the supplies for the entire hospital¹

Healthcare facilities contributed to ~8% of the greenhouse gas emissions and ~7% of the CO₂ emissions in the US²

Needs Identification

1. Your team shares your sustainability goals with the JJMDC team
2. Together, your team and JJMDC define areas to evaluate sustainability practices that can be strengthened with the help of JJMDC devices or programs
3. JJMDC sustainability expert conducts a confidential, on-site analysis of current practices in your facility
4. Based on assessment findings, JJMDC provides tailored recommendations to target sustainability opportunities
5. Your team and JJMDC agree on plans to address top sustainability needs and establish metrics to track progress

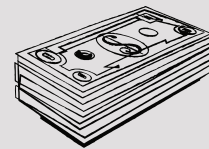

Delivering Results – Large, multi-state IDN

281K

281,000 lbs of regulated medical waste diverted from landfills³

\$8.6 million estimated annual savings from utilizing reprocessed single-use devices³

\$141,000 estimated savings on waste removal costs³

These are examples only and do not guarantee or predict future results, which will vary depending on individual circumstances
